GROOWERS

GROW WEED IN OPEN SPACE

Angel Round launch on 26/06/2022

Become an early supporter to get unique NFTs and other benefits in the upcoming Groowers game!

INTRODUCTION

Groowers is a web game built on the Etherium network. It tells a story about sloths who love to grow and smoke weed, while cruising through galaxies on their spaceship. The gameplay includes farming crops, improving breeds, trading, social events, and much more.

Not only limited to weed enthusiasts, the Groowers game brings together all people around ideas of peace, friendship, and prosperity. Join the game to earn some money or simply hang out with cool people in our community!

GAMEPLAY

Grow weed and earn money

Your goal is to harvest maximal amount of $BUDS with minimal investments. After putting a seed in a pot, wait for the full growth to take profits or re-invest.

Alternatively, you can harvest the crops early to get seed clones and upgrade their genetics to get more $BUDS in the future.

Be the most efficient groower

The growth process depends on several factors: seed genetics, pot quality, etc. They will affect how many $BUDS you harvest and the growth speed.

Whether your strategy is profitable is also influenced by market prices of ingredients and game tokens. Only after accounting for all variables you can get the best out of your weed plantation.
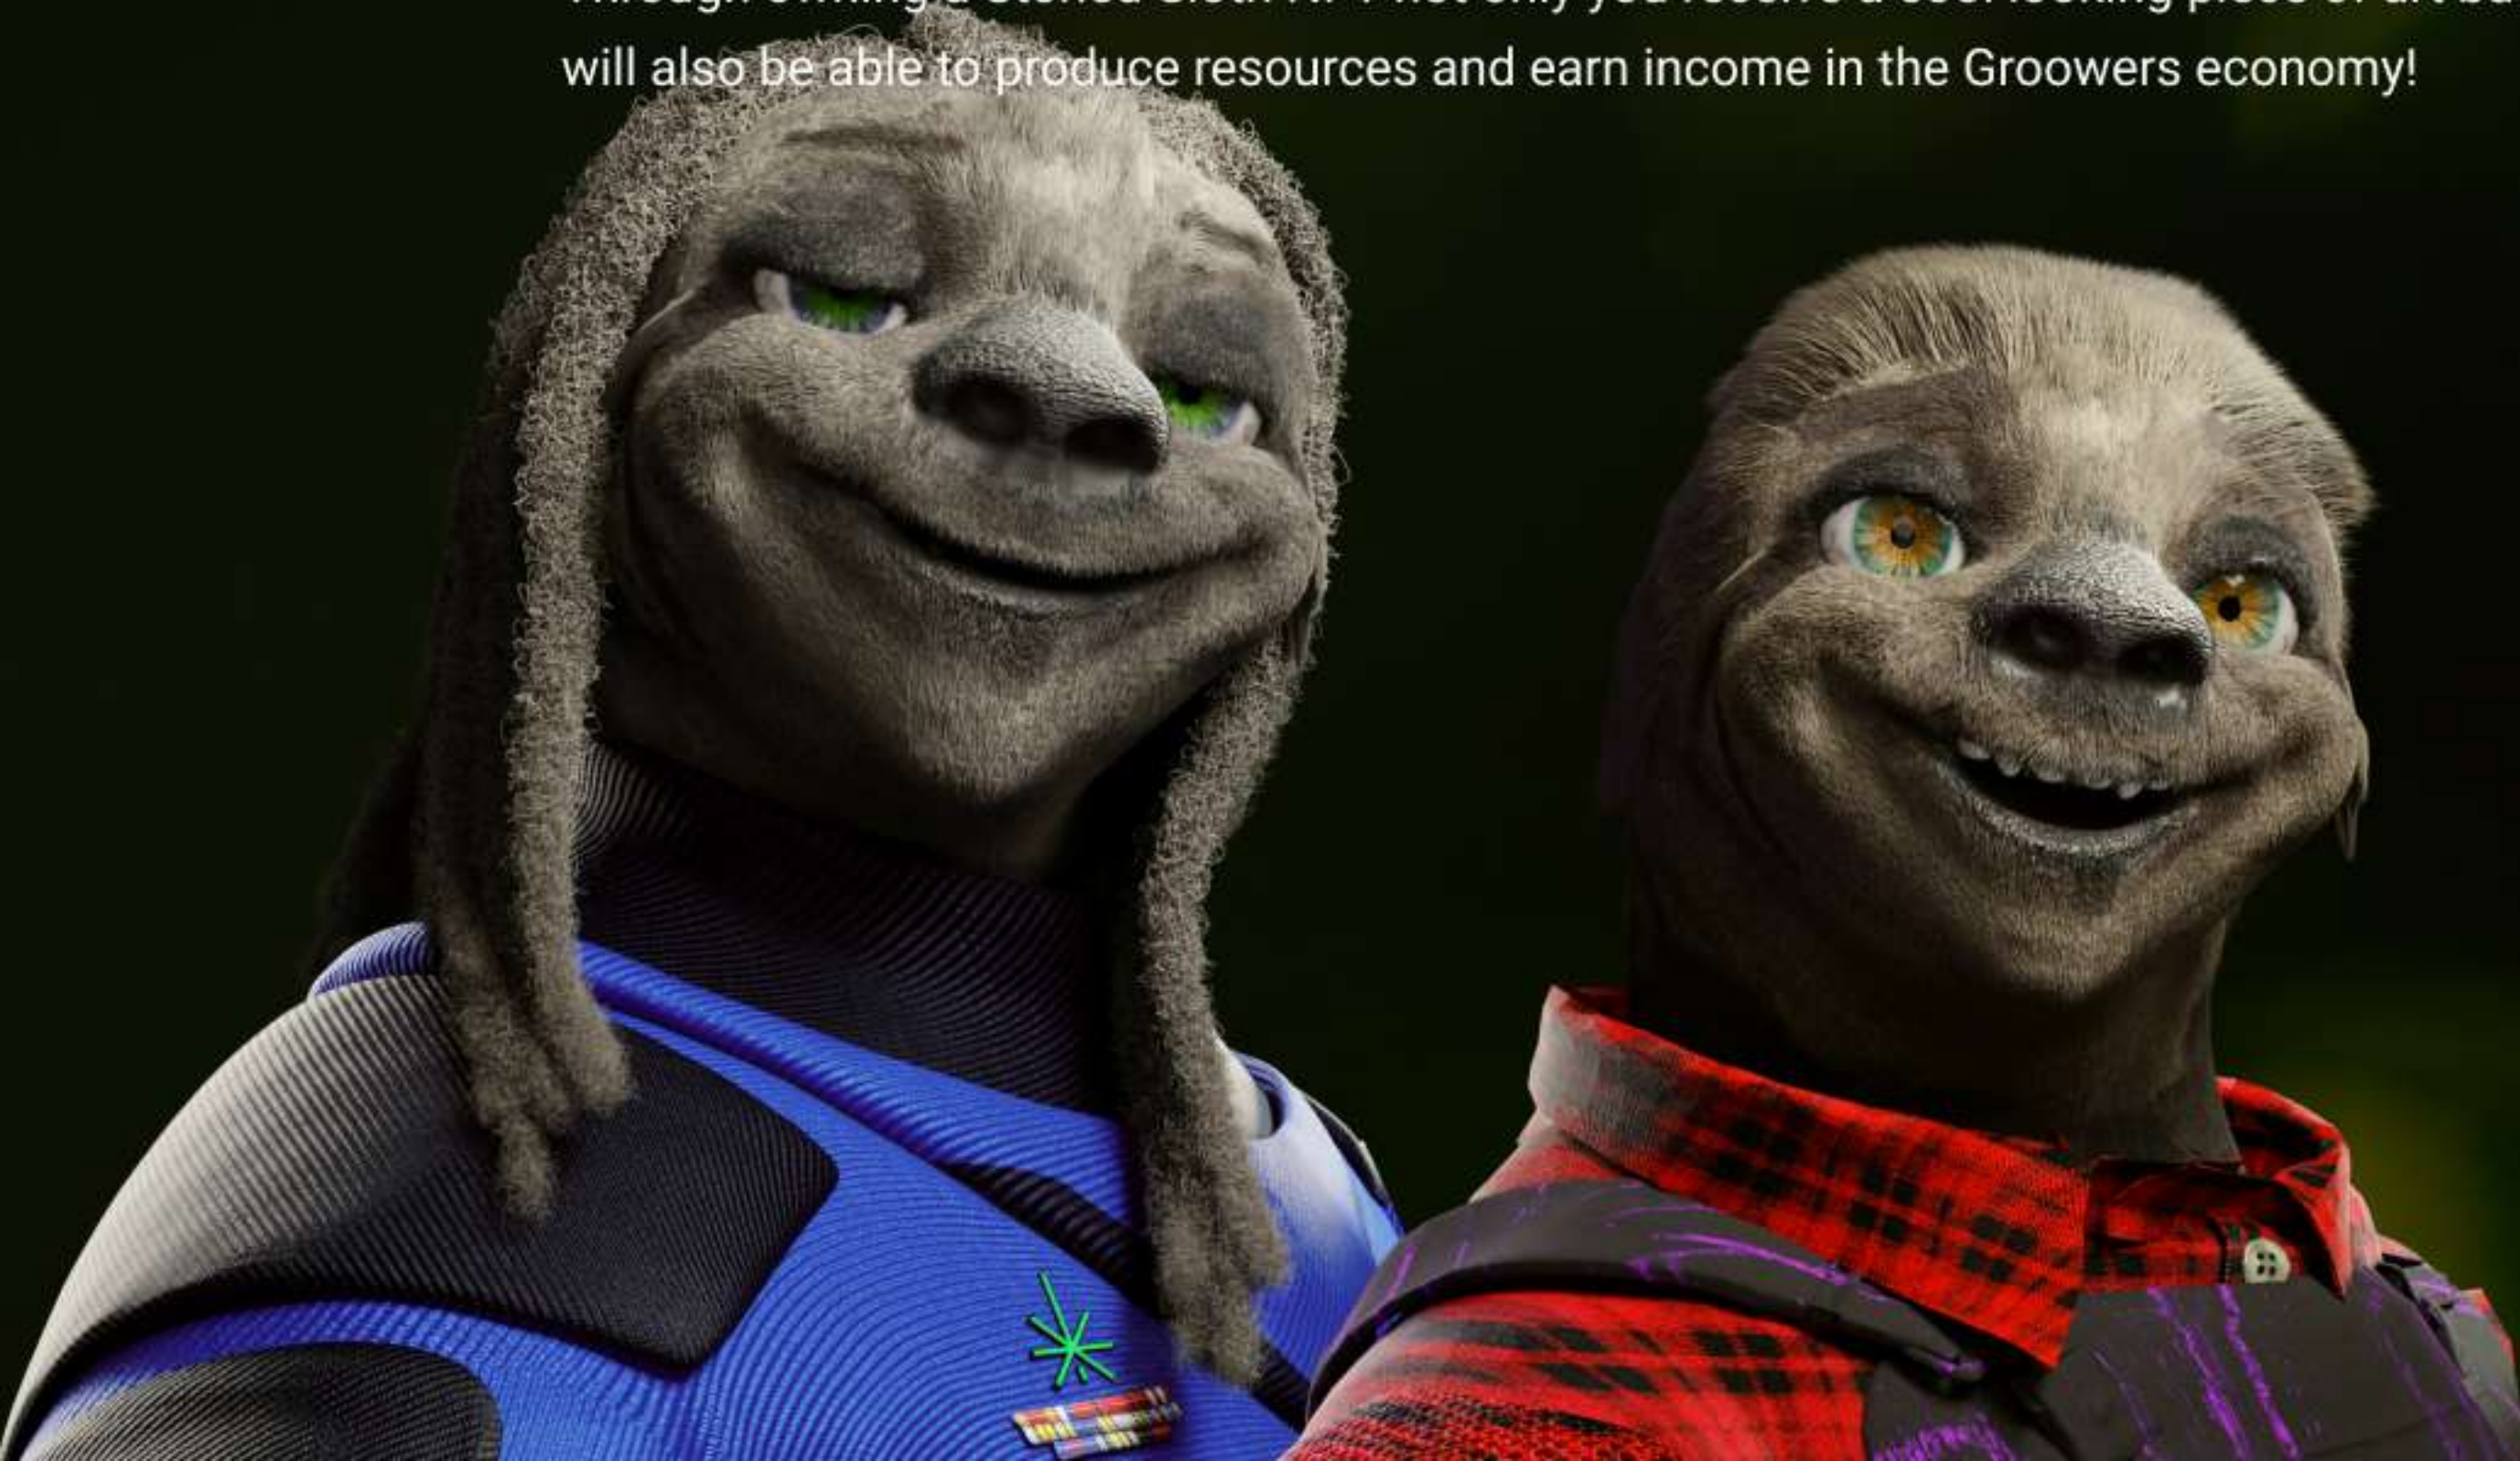

STONER SLOTH NFTs

Only 4200 NFTs to grab

Stoned Sloths is an NFT collection of 4200 unique avatars that will be minted on Ethereum and published on OpenSea.

Through owning a Stoned Sloth NFT not only you receive a cool looking piece of art but will also be able to produce resources and earn income in the Groowers economy!

In-game workers

Stoned Sloths will be the only producers of game resources such as pots. A player can always buy these item from the market - but it is better to have your buddy Sloth doing it!

Community pass

Only the Stoned Sloth holders will receive access to more events & a special channel in our Discord server. Do not worry - public spots will still remain the main place to meet people but who knows what happens behind the closed doors!

STONER SLOTH NFTs

NFT levelling

Each Stoned Sloth NFT will have a unique appearance but each of them can reach level 1 to 6. Each level unlocks new powers for your Sloths and boosts their efficiency. And on top of that, you receive cool new roles & swag with each upgrade - from a common worker to the ship pilot!

GAME ITEMS - SEEDS

Seeds

Seeds are NFTs that can be purchased from the NPC seller for BUDS. After putting a seed in a pot, it is burned and cannot be recovered.

Each seed has 6 genes, which can randomly be positive or negative. The rarity of the seed ranges from I (common, 3 genes positive) to VI (superseed, all 8 genes positive).

Y - G - G - Y - G - W

Y = Yield

Increases/decreases the amount of harvested BUDS.

G = Growth

Increases/decreases the speed of the growth process.

W = Watery

Increases/decreases the water intake of the plant

SEED:01

SEED CAPSULE

GAME ITEMS - POTS

A container for seeds

It's freaking hard to grow a plant without the soil, duh. Space pots are containers where seeds are being put in to grow. They maintain optimal environment (air, temperature, etc) for a rich harvest. Unfortunately, pots have limited durability since each growth cycle damages them. Sooner or later a pot will break and you have to buy/produce a new one, or repare old one if you are Sloth owner.

Pots are created by Sloths

Pots are masterfully produced by Sloths through staking your NFT in a smart contract. A level 1 sloth creates a level 1 pot, and so on. The higher the level of your sloths - the higher pot level you can produce.

GAME ITEMS - CLONES

Clones

If a player decides to cut the crops early, he/she will get the so-called seed clones instead of the BUDS harvest. The clones are sterile and will never grow into weed crops. However, they keep their parent's genetics and can be used in the laboratory to upgrade attributes of the plant.

Improving genetics

In the laboratory, players can attempt to better the clone genetics in two ways. The first method is safe but expensive - you have to spend BUDS and GROOWERS to pay the scientists but the result is guaranteed.

The second method is a risky gamble. Users put their clones in an experimental device that on failure can easily destroy the crops. For that, this process will be much cheaper than the scientific one.

As the improvement result, some of the negative genes will turn positive, and players will receive a seed with new genetics.

ROADMAP

1st round — 420 NFTs

Angel Round

- Early fundraise for 420 Angel Investors
- Social media & Website
- Initial 3D modelling
- NFT collection layering

The Groowers story begins with 420 Angels who made the journey possible. Each of them receives a unique Angel Sloth NFT, access to closed beta test, and a guaranteed allocation in the future $GROOWERS earning.

2nd round — 420 NFTs

Community round

- Discounted round (420 NFTs for active users)
- NFT collection Rendering
- Further design of the NFT collection
- Partnerships & Advisory

Sloths are building a ship and preparing themselves for the upcoming launch! They spend a lot of time designing cozy rooms and reliable spacesuits. Wise friends are helping Sloths to make sure the journey is fun but safe.

3rd round — 420 NFTs

General list sale

- Limited sale of 420 NFTs (full price)
- First game documentation
- NFT mint & reveal
- Staking

Sloths and fellow travellers starting there adventure! They are cruising the universe and meeting its other cool inhabitants. Sloths makes a lot of friendships on the way - the Groowers community is booming!

4th round — 420 NFTs

Public NFT Sale

- Open sale of Stoned Sloths collection (420 NFTs)
- $GROOWERS seed round
- Community building

More and more Sloths are awaken from the cryogenic sleep. The effort now shifts to building first greenhouses inside the spaceship. There is a lot of work to be done but Groowers should soon get a chance to grow weed and share it with each other!

5th round — 420 NFTs

Game development I

- DEX listing
- Initial game development
- Online & Offline events

Sloths have designed first prototypes of weed plantations and begun to test them - looks promising! As lazy as Sloths are, they carefully think about the spaceship economics & growth efficiency.

6th round — 420 NFTs

Game development II

- Smart contract development
- Marketing in Metaverses (Sandbox, etc.)

Have Sloths succeed in building weed space farms? Were they all able to wake up from the sleep and join the Groowers community? And most importantly - where will the space road take them further? Join Groowers.io and find out yourself! 8-)

7th round — 420 NFTs

Game development III

- Closed beta testing
- Marketing in Metaverses (Sandbox, etc.)

8th round — 420 NFTs

TGE & Rewards

- $GROOWERS TGE
- LP reward program
- Open beta testing

9th round — 420 NFTs

Game release!

- Game launch
- Partnerships & Celebreties
- User attraction

10th round — 420 NFTs

On and beyond...

- Integrations with metaverses
- Championships & Tournaments
- ... and many more surprises to come!

WHY ✳ GROOWERS ARE GOOOOOD

Easy to roll:

Low entry barrier, no KYC, no country restrictions.
Just connect to our web app and start growing BUDS!

Stoned economy

Sloths live their lives relaxed and don't like volatility. We have
the smartest Sloths working on the economy balance, so each
player can enjoy the gameplay and profit from it.

Flying high

A combination of strategy, NFT collecting, gambling, and many
more elements make Groowers a fun and exciting game. Don't
get too addicted!

Never light up alone

First in Discord chats, later in virtual spaces. The Groowers
game will rally people from all backgrounds around the fun
ideas of the 420 clout.

TOKENOMICS

Tokenomics overview

Two tokens build the backbone of the Groowers economy.

The harvested **$BUDS** are used as main currency in almost all in-game trades.

The **$GROOWER** token is a scarce extract used only for advanced upgrades.

Token IDO

A portion of the $GROOWERS token will be offered to early investors that support the project . Stay stoned for the updates!

$BUDS token

Utility: **in-game currency**

Supply: **adjustable**

$GROOWERS token

Utility: **governance, rare upgrades**

Supply: **1,000,000**
